

Staff will be supervising the center and educating the recyclers on how to use the recycling trailer. Recyclers will feed their own recycling into the labeled collection bins and are encouraged to bring their material pre-sorted.

The recycling trailer will collect the following separated items:

- Aluminum
- Glass
- Tin Cans
- #1 bottles
- #2 colored plastic bottles
- #2 natural plastic bottles
- #3-7 mixed plastic
- Newspaper
- Magazines and catalogs
- Office paper
- Cardboard (must be flattened to fit into bin)

#### **Helpful Tips:**

- Recycling must be loose inside the collection bins.
- No bagged recycling may be placed inside the trailer
- Avoid tying plastic bottles together with rope or twine.
- Recyclers will be asked to take items that are not accepted including bags home with them.
- Recommended containers for transporting your recycling to the mobile trailer include paper bags (can be recycled with cardboard), cardboard boxes, and reusable totes and bags.

Polystyrene #6 is only accepted at the Marshall Recycling Center, 13300 15 Mile Rd., Marshall, which is open Tuesday from 12-4 p.m. and Wednesday from 9 a.m. to 1 p.m.
