

FIRE DEPARTMENT NEWS

Your first responder team invites you again for an evening out. Our annual Pork BBQ is on July 15, 5:00 to 7:30 (Enter that date in your calendar). Meet our team, enjoy dinner, visit with your neighbors and let the kids climb on the trucks, spray some water and learn about being a firefighter.

Our newsletter safety tips come from actual calls we have responded too:

Safety tip #1

- Always have your water flotation device with you while fishing or boating, just in case you were to fall in the water unexpectedly. It could truly be a life saver.

Safety Tip #2

- In the event of a power outage DO NOT run your generator in the house, attached garage or near a window as the fumes can be very dangerous and even deadly.

As always, we remind you that smoke detectors are available to be installed in your home at no cost to you and reflective mail box signs can be purchased by calling one of the numbers at the end of this note. They make a great gift for new homeowners and it makes it so much easier to find you if our services are needed.

Thank you for you continued support, have a great summer, we hope to see you on July 15th.
